

# **ABOUT US**

Sunwatt DTA Inverter is a fresh and unique company that aims to push the boundaries of renewable energy technology.

Sunwatt DTA Inverter specializes in the manufacture of solar on-grid inverters and offers a wide range of products ranging from 1kw to 200kw. These devices are designed to meet both home and business energy requirements, providing dependability and efficiency.

# **CONTENTS**

## **Single Phase PV String Inverter** **Residential System**

Single Phase 1-3kW, Single Phase 3-6kW,  
Single Phase 7-10kW

## **Three Phase PV String Inverter** **Residential & Small Commercial System**

Three Phase 3-25kW

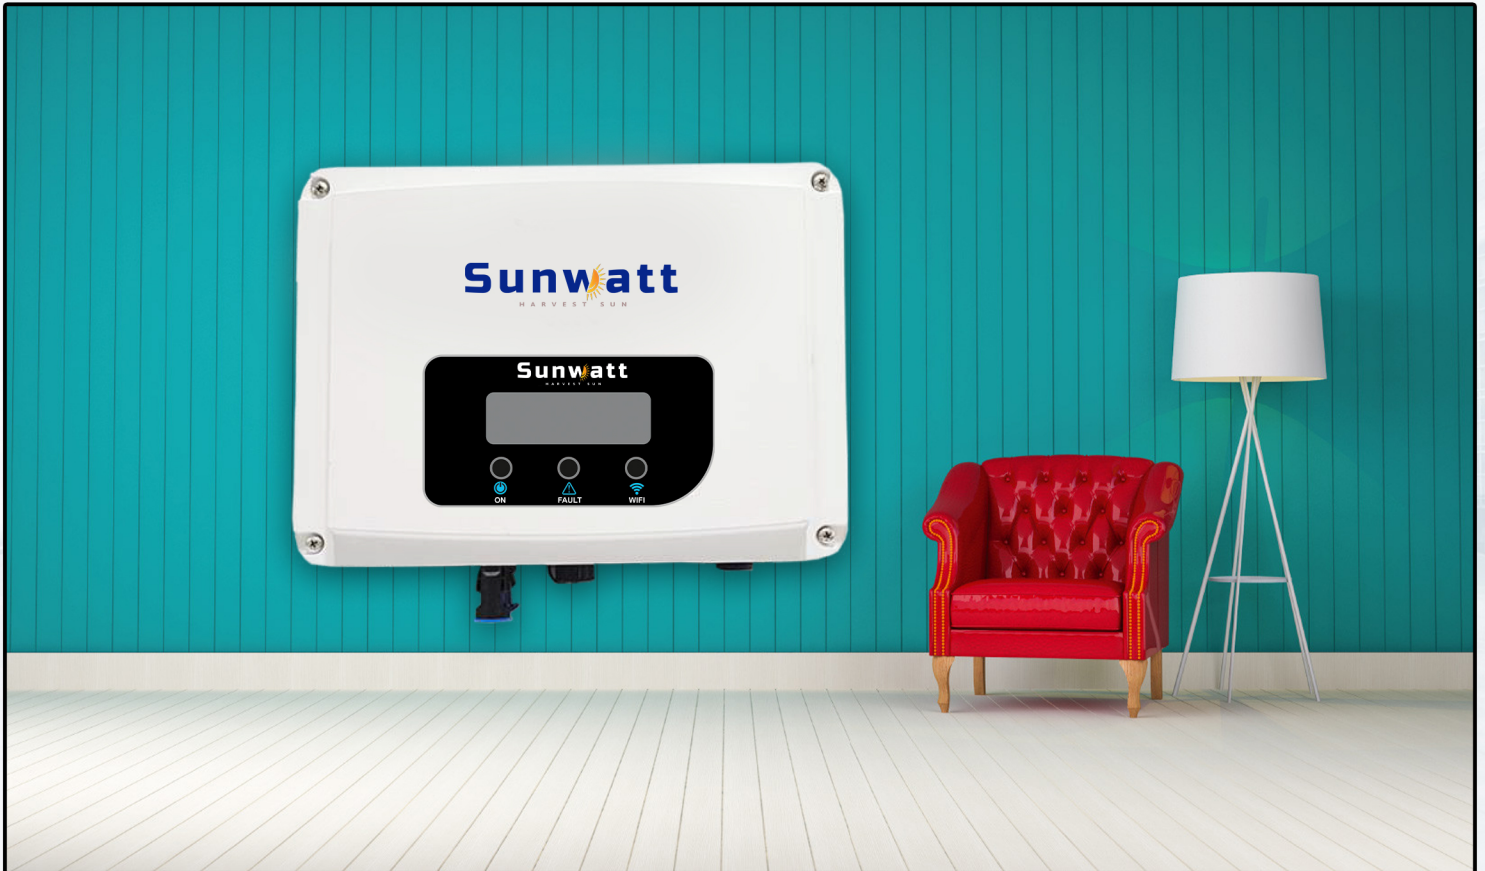

## **Three Phase PV String Inverter** **Commercial System and Power Plants**

Three Phase 30kW, Three Phase 36-60kW,  
Three Phase 70-110kW

# Single Phase PV String Inverter

1 KW- 6.2KW

Special Al Die cast Heat Sink.

Suitable for high watt peak panels  
Mono Perc, TOPCon & Bifacial.

100% Inhouse R&D,  
Production & testing Facility at Pune.

High surge carrying Capacity

Highest Derating temp = 60°C with  
SNHM technique.
